

# DNN ONLINE TRAINING PROGRAM:

## The Convenient Way to Learn!

### Stay Up-to-Date with Training

Let's face it ...you and your staff are very busy managing the success of your mission critical website and dedicated online community. Taking time to schedule on-site or instructor-led training to polish your skills or refine your understanding of working with DNN solutions may not be an option. Did you know you can stay up-to-date without leaving your desk?

The Online Training Subscription provides you and your team with on-demand access to over one hundred videos that will have you mastering DNN concepts, solutions, and functionality in no time. Instructional videos are task-oriented, persona-driven, and granular in nature allowing you to learn most efficiently.

Videos in the training library can be accessed any time of the day and most importantly, the library is constantly updated with the latest information.

Learning is more convenient so you and your team can always stay up-to-date with the DNN Online Training Program.

### Online, Anytime Access

*The DNN Training Program includes the following sections:*

- Ecosystem: Get familiar with groups, services, and resources in the DNN Ecosystem.
- Administration: Site administrators can manage with a consistent approach across all DNN solutions.
- Product training: Understand how to configure and utilize functionality, and features for Evoq Content, and Evoq Social.
- Evoq in the Cloud: Learn about the feature set offered available with our cloud solution.
- Development with DNN: Help your developers extend more value through the core concepts and functionality in module development.
- Designing with DNN: Guide your designers to easily achieve any look and feel desired.

#### ABOUT DNN

DNN provides a suite of solutions for creating rich, rewarding online experiences for customers, partners and employees. Our technology is the foundation for 750,000+ websites worldwide and our customers include True Value Hardware, Bose, Cornell University, Glacier Water, Dannon, Delphi, USAA, NASCAR, Northern Health and the City of Denver. In addition to our commercial solutions, DNN is the steward of the DotNetNuke Open Source Project.
