DNN PLATFORM

# 7.1 PRODUCT THEMES

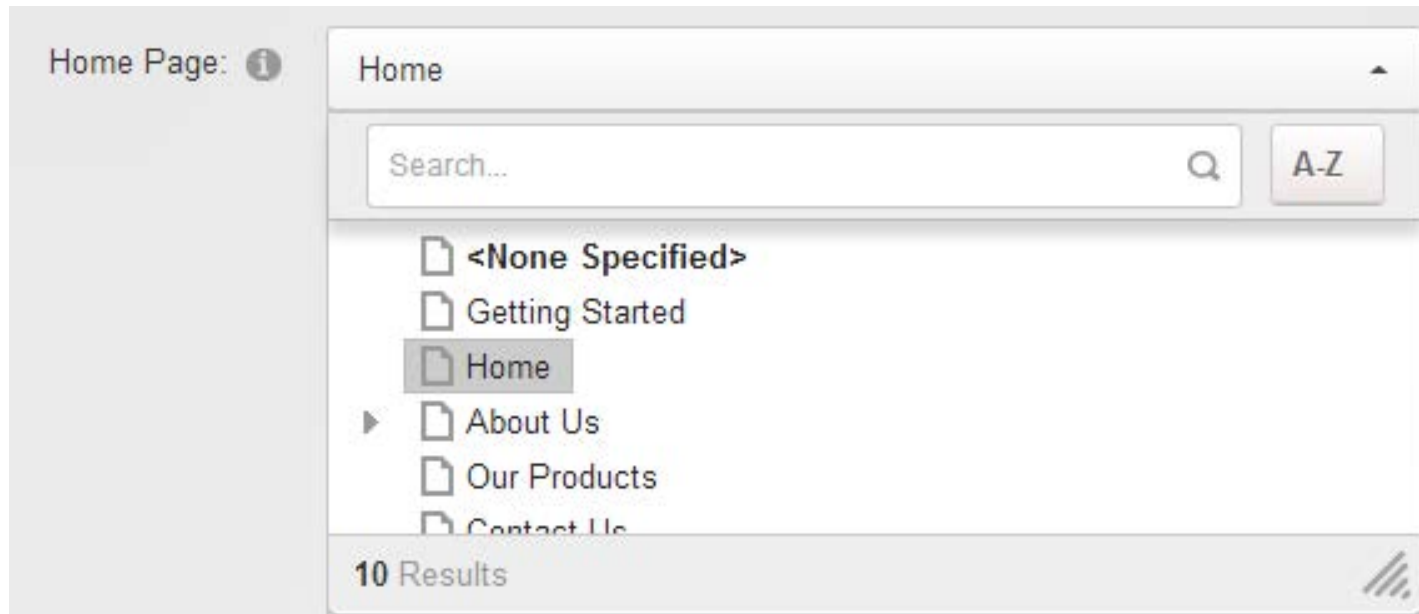

# USABILITY

- **Administrative User Interface**
  - Elegantly handle large amounts of information
  - Optimize the information being sent from the server to the browser on every page request
  - Candidates identified: Page selectors, Folder selectors, File selectors, User selectors, Permissions grids

# USABILITY

- **Page Selector Control**
  - Support thousands of Pages, reduce number of items loaded by default, better user experience

# ENTERPRISE SECURITY

- **User Password Management**
  - Hashed Passwords on all new installations
  - Improve Password Reset experience
  - Provide more robust Password Complexity configuration
  - Password History Retention
  - Restricting Login based on IP Address
  - Password Strength Meter

# DIGITAL ASSET MANAGEMENT

- **General**
  - Make user interface consistent for both File Manager and Document Library to allow for easier customer transition
  - Consolidate management functions into a single area
- **File Manager**
  - Modernize user interface with drag-and-drop, multiple management layouts, multiple file views
  - Metadata and preview support
- **Document Library**
  - Retain all existing differentiated features and layer them elegantly in to the new user interface
  - Utilize standard taxonomy for tagging

# CONTENT ACCESSIBILITY

- **URL Management**

- Integration of iFinity Url Master
- Extensionless URLs by default
- Multiple URLs per Page
- Vanity URLs for Users
- URL History / Preservation
- Custom 404/501 handling per Site
- URL Formatting Options
- Internationalization Support
- Extensible through Module URL providers

# CONTENT ACCESSIBILITY

- **Unified Search**

- Consolidation of the two incompatible search solutions
- Index ALL content within a site
- Extensible to allow for indexing of any type of content internally or externally
- Support for item level content permissions and security trimming
- Utilization of best-of-breed content indexing and retrieval techniques
- Support for multi-lingual content and multiple sites

# CONTENT ACCESSIBILITY
