PRIVATE COMPANIES

2011

Inc.500

About the Inc. 500 Since 1982, businesspeople have eagerly sought out *Inc.'s* annual ranking of the fastest-growing privately held companies in the U.S. The list gives readers insight into the hottest trends and emerging themes in the evolving economy available nowhere else. From Microsoft and Domino's Pizza in the 1980's, to E*Trade and Clif Bar in the 1990's, to American Apparel and Shutterfly in this decade, the Inc. 500 has always been ahead of the curve.

DotNetNuke Corporation NO. 228

1,406% THREE-YEAR GROWTH
REVENUE: $6.9 MILLION   EMPLOYEES: 44
CEO: NAVIN NAGIAH   FOUNDED: 2006
San Mateo, CA   www.DotNetNuke.com

The most widely adopted Web content management platform for building websites and Web applications on Microsoft .NET, DotNetNuke allows users to quickly and cost effectively change the appearance of, or add features to, their website through the addition of software apps. Organizations use DotNetNuke (available in both free and commercial editions) to quickly develop and deploy interactive, dynamic public websites, intranets, extranets, and Web applications. The platform has been downloaded more than 6 million times, powers more than 600,000 production websites, and has a registered user community of more than 800,000 members.

In the company's own words With over 7 million downloads and more than 700,000 websites built on our open source platform, DotNetNuke is the #1 Web content management system and application framework for the Microsoft ecosystem. Setting up DotNetNuke websites is fun, fast and easy for developers, designers and business people. The powerful DNN platform is highly secure, flexible and extensible, making it perfect for organizations of all sizes. And our online Store accelerates site design and delivery by offering more than 10,000 pre-built apps, designs and other add-ons that can be quickly configured for your site.

The DotNetNuke Professional Edition extends the capabilities of our free, open source product by adding advanced content approval workflow, document management, granular permissions, an eCommerce engine, cloud services, bundled training and world-class support.

The DotNetNuke Enterprise Edition extends these capabilities even further by offering advanced content staging and a robust SharePoint connector that empowers organizations to publish documents managed in Microsoft SharePoint to their DNN website in a controlled, secure manner.
