Mixed news for Denti-Cal adult benefits

What's New

Dentists must amend their Business Associate Agreements

The U.S. Department of Health and Human Services (HHS) published the long-awaited final omnibus rule under HIPAA (Omnibus Rule) on Jan. 23, 2013. The rule implements the Health Information Technology for Economic and Clinical Health Act (HITECH) and requires that health care providers amend their Notice of Privacy Practices (NPP) and Business Associate Agreements to include new elements. The compliance date for the final rule is Sept. 23, 2013. [Read more >>](#)

Top speakers to headline CDA Presents San Francisco

Some of dentistry's most captivating speakers will be headlining CDA Presents The Art and Science of Dentistry in San Francisco, Aug. 15 to 17, with innovative lectures and educational workshops. Both dentists and their staffs have an opportunity to learn new things about the profession at CDA Presents. [Read more >>](#)

Training required on Cal/OSHA regulation changes

California employers have until Dec. 1, 2013, to train employees on the new hazard label elements and safety data sheet format required by the Cal/OSHA Hazard

Mixed news for Denti-Cal adult benefits

Two significant but conflicting developments in the longstanding effort to rebuild the oral health care safety net in California have occurred. In a disappointing move, on the same day that the state Senate Budget and Fiscal Review Committee endorsed restoring Medi-Cal adult dental benefits, the U.S. 9th Circuit Court of Appeals on May 24 denied a petition filed by CDA and a coalition of health care organizations aiming to stop the state from implementing a 10 percent reduction in Medi-Cal provider reimbursement rates. The Need

California Dental Association has its own website development team, but they needed assistance to tackle a number of areas themselves. BlueBolt did some heavy lifting for CDA.org, on the consulting side, so that their own team could tackle the bulk of the real development work. This way, CDA.org was able to limit their budget requirements and get excellent training along the way.

The Solution

BlueBolt understands that many organizations have both limited budgets as well as an eager development staff. We like to think that we will always work hard to help all of our client partners, not just those who require large project attention. CDA.org needed help, and we were happy to help them customize a powerful CMS, and implement fully responsive mobile skins. This is a great website, and the CDA.org development team took on a lot of work and did a great job. In the meantime, BlueBolt continues to provide website maintenance and training.

The Technology

The California Dental Association website was built on DNN's EVOQ platform which enables the simple management of many different content types via a slick and intuitive interface.
