Introducing: DNN Prime

DNN Prime: 1 subscription, unlimited possibilities.

With DNN Prime, you now have access to the growing library of DNN Prime Solutions with one subscription. Gone are the days of maintaining the dozens of subscriptions needed to operate your business. DNN Prime provides you with all the software in the expanding portfolio for free — forever. Continue paying your current subscription and The standard edition of every other DNN Prime product is free.

Benefits

- ✔ **Deploy new solutions:** DNNPrime enables you to add new value-based solutions to stay ahead of your competition at no additional cost.
- ✔ **Massive cost savings:** DNN Prime gives you millions of dollars of software for free — so you can switch from high-dollar products to their DNN Prime equivalents. It's the perfect way to fund your most pressing initiatives.
- ✔ **It keeps getting better:** As new solutions are regularly added, you'll have immediate access to begin using those as well.

Great news! We've already made you a Prime member.

HOW IT WORKS:

Pay maintenance or subscribe to any product, and get DNN Prime as a free add-on to your base maintenance program.

Continue paying your current subscription and get access to any other product in the growing portfolio for free.

DNN Prime allows you to add new products at any time. Our Customer Success Team will ensure an easy deployment and onboarding.

Enterprise Content Management System for building and managing world class web properties.

AWS Hosting, DevOps and Infrastructure Management for Ruby on Rails, node.js and PHP applications.

Consolidated Customer Service Helpdesk Software for Multi-channel support (Email, Chat, Social/Web-based Ticketing and Phone).

Project management, issue tracking, and support, fused with just enough process to help you deliver.

Personalization solution to increase Customer Engagement and Retention.

Rapid mobile application development solution for iOS, Android and Progressive Web Apps (PWA).
