

# Adelaide Entertainment Centre

[theaec.net](http://theaec.net) | [View case study](#)

The Adelaide Entertainment Centre (AEC) is Adelaide's best concert and theatre venue. Capable of hosting intimate theatre experiences right through to the world's biggest stars and productions, the flexibility of the AEC layout also makes it an ideal function venue.

The AEC had a specific set of requirements when they approached The Digital Embassy. They required updates to their existing business website so that it would promote the AEC as a function venue as well as a concert venue.

The redevelopment needed to include a design refresh and the development of a new functions area of the website to promote that aspect of the AEC business. It also needed to be built using responsive design to make it user friendly for mobile and tablet users.

*"We are very happy. Please pass on to your team our extreme thanks for all their hard work and endless patience. The Digital Embassy has done a fabulous job and all the hard work has been worth it."*

Coralie Cheney - Senior Marketing Manager
